

Abhijith C S

Full Stack .NET Developer

abhijithcsg8@gmail.com | +91 9778052807 | Kerala, India | [linkedin.com/in/abhijith-cs-](https://www.linkedin.com/in/abhijith-cs-)

PROFILE

Results-driven .NET Full Stack Developer with 1.5+ years of experience in designing, developing, and maintaining scalable enterprise applications using C#, .NET Core, ASP.NET, and Microsoft SQL Server. Skilled in RESTful API development, database management, and Agile software development. Proven ability to build secure backend systems, responsive user interfaces, and deliver reliable software solutions that enhance system performance and business operations.

AREA OF EXPERTISE

- C# Programming
- ASP.NET & Web API Development
- .NET Core Development
- DevExtreme Front-End Development
- Microsoft SQL Server & Query Optimization
- RESTful API Design & Integration
- Entity Framework & ORM
- Azure DevOps
- Software Architecture & System Design
- Agile & Scrum Development Methodologies
- Problem Solving & Performance Optimization

PROFESSIONAL EXPERIENCE

Wipro Linecraft AI - Pune, India

Dec 2024 - Present

Software Developer

- Developed enterprise project management applications using C#, ASP.NET Web API, and SQL Server.
- Developed high-performance REST APIs for handling Salesforce CRM JSON payloads and database operations.
- Consolidated 11 global instance databases into a centralized Enterprise database by implementing a high-performance data migration solution with advanced logic for schema mapping, relationship alignment, and mismatched ID standardization.
- Improved API performance by optimizing queries and indexing, reducing response time from 5 minutes to 3 seconds.
- Implemented SQL Server Transactional Replication for real-time synchronization across instances.
- Designed and implemented an automated replication failure monitoring and email alert system, reducing downtime and ensuring minimal disruption to business operations.
- Developed a database backup and restore application with a user-friendly dashboard, enabling one-click database backup and restore operations using server credentials and remote shared path access.
- Migrated legacy DevExpress pages to DevExtreme, improving UI responsiveness, maintainability, and user experience.
- Upgraded UI framework (Bootstrap 3 → 5.2.2) for improved user experience.

EDUCATION

Bachelor of Computer Applications (BCA)

Kodiyeri Balakrishnan Memorial Govt. College Thalassery, Affiliated to
Kannur University

2021 - 2024
Kannur, Kerala

KEY PROJECTS

Database Backup & Restore Management System

Tech Stack: ASP.NET Core, C#, SQL Server, Bootstrap, REST API

- Developed a centralized database backup and restore application using ASP.NET Core, C#, and SQL Server.
- Implemented one-click database backup and restore functionality using server credentials and remote shared path access.
- Designed an interactive dashboard for managing backup operations and monitoring restore status.
- Added automated validation, exception handling, and logging to improve reliability and reduce manual intervention.
- Improved database administration efficiency and simplified database recovery operations.

Trip Planner Web Application

Tech Stack: Python, Django, PostgreSQL, HTML, CSS, Bootstrap, JavaScript

- Developed a travel planning web application that provides customized tour packages based on user destination, available time, and landscape preferences.
- Implemented interactive map integration, itinerary suggestions, and location-based travel information.
- Added features for restaurant and accommodation recommendations to improve user travel planning experience.
- Developed a user review and tourist spot contribution system for community-driven travel insights.
- Built a responsive and user-friendly interface using Bootstrap, HTML, CSS, and JavaScript.

CERTIFICATION

- Advanced Web APIs with ASP.NET Core 8 Certification – LinkedIn Learning [↗](#)
- Microsoft SQL Server 2022 Essential Training – LinkedIn Learning [↗](#)
- SQL (Advanced) – HackerRank [↗](#)
- Software Engineer Certification – HackerRank [↗](#)

TOOLS & SOFTWARE PROFICIENCY

- **Languages** — C#, Java, C, Python, JavaScript, HTML, CSS
- **Frameworks** — .NET Core, ASP.NET, Entity Framework, DevExtreme, Django
- **Frontend** — DevExtreme, Bootstrap, jQuery, AJAX
- **Backend** — ASP.NET Web API, REST API Development, Django
- **Databases** — Microsoft SQL Server, SQL Optimization
- **Version Control** — Git, GitHub
- **Other** — Azure DevOps, Agile, Scrum, System Design, Software Architecture, Data Security, Role-Based Access Control
